

Welcome to Patteson Lodge

Did you know we have a number of additional activities “hidden away” which you can use during your stay?

Outside

Games cupboard – situated on the veranda, the cupboard is full of various outdoor play items, balls in many sizes, skipping ropes, chalk, skittles.

Table umbrella’s – behind the main exit, to be used on the picnic tables

BBQ – grills and other equipment next to the kitchen door, ready for use in the brick built frame next to the wildlife garden.

Upstairs

Flip chart board – usually stored in Indaba, with paper and pens, ready for your use.

Baby equipment – travel cot and baby bath. These have been on site for many years, so if you do plan to use, please check carefully first!

Lollipop – if you are heading to Hautbois for activities, make sure you follow road safety, by using the garden gate next to the main gate to lead you through the woods, to a crossing point opposite Hautbois gate. For additional safety, take the lollipop with you. Yellow safety jackets are also available and both are stored in the ‘hire’ cupboard at the top of the stairs.

Downstairs

At the first cupboard under the stairs there are various indoor games and an electric keyboard.

Cushions – all stored under the table in the main hall.

Noticeboards in the dormitory corridor.

Extra small toilet seat insert – stored in the boiler room.

Shop

As you may know in 2025 we changed to a 'mobile' shop. Wheel it to where you need and then lock the wheels in place. There is a small hook at the back of the cupboard to prevent it opening too far.

Spread the baskets out or leave them inside – the choice is yours! By putting everything in baskets, you can also remove any items from sale that you don't want to sell!

Wish list

Every leader who visits says 'why don't they have' – it is probably because we haven't thought of it! Let us know so that we can add it to the wish list, or if your funds allow, we would welcome any equipment donations!
